EXPERIENCE

Actualize | September, 2020 - January, 2021

Full Stack Web Developer Student

- **Capstone Project (INDYCare365):** personally, built a web app that helps users find human and health services in Indiana. Users can add organizations or make requests based on their needs. The framework applies Ruby on Rails, Vue.js, HTML, CSS, JavaScript, PostgreSQL, Git, GitHub, Excel, and Bootstrap.
- **Bootcamp:** Learned fundamentals and best practices in full-stack web development in areas of project architecture, backend, frontend, and how to effectively self-teach new technologies. Generated technical requirements and determined the most effective solutions, created wireframes, designed schema, and researched outside resources.
 - Built and tested the backend, incorporating external APIs.
 - Created pages and RESTful routes, made web requests to retrieve data, formatted and styled results, incorporated libraries, and themes.
